

Position Available Programmer Analyst II

Michigan Supreme Court
State Court Administrative Office
Judicial Information Services
Salary Range: \$42,762.24 to \$55,185.84

DUTIES: Is supervised by the Systems Manager for Automation and works within the Automation division. The incumbent codes and compiles programs required to implement newly designed or enhanced modules. This includes but is not limited to the configuration and maintenance of web sites hosting web applications, the design, modeling and modification of databases for application systems, coding new programs or changing existing programs into computer language, and designing the logic for system programs and applications.

LOCATION: Michigan Hall of Justice, Lansing, MI. Some travel is required.

EDUCATION: Associate's degree in computer science with three to five years of related and progressively more responsible experience in designing, analyzing, coding and testing computer programs, writing user documentation and training.

SKILLS: Candidate will have two or more years experience with web applications, preferably using Active Server pages (ASP) as a front-end for Oracle. Experience in SQL, JAVA or JavaScript, and .NET technologies as well as Crystal Reports is desirable. Valid Michigan driver's license required.

E-mail preferred to benedictm@courts.mi.gov, or mail cover letter and resume by July 9, 2004 to:
